**Rajeev Suri appointed Chief Executive Officer of Nokia Siemens Networks;
Simon Beresford-Wylie to step down after successfully leading the company's
integration**

Espoo, Finland – The Nokia Siemens Networks Board of Directors has appointed Rajeev Suri as Chief Executive Officer, effective October 1, 2009. Suri succeeds Simon Beresford-Wylie, who will support Suri during a transition period through November 1, 2009 before leaving the company. Beresford-Wylie will leave the Nokia Group Executive Board as of September 30, 2009. Suri will be based at Nokia Siemens Networks' headquarters in Espoo, Finland.

"I am extremely pleased to announce Rajeev's appointment as Chief Executive Officer of Nokia Siemens Networks," said Olli-Pekka Kallasvuo, Nokia CEO and Chairman of the Board of Directors of Nokia Siemens Networks. "We began a comprehensive succession process when Simon shared his desire to depart at the appropriate time. That process has made it clear that Rajeev brings the right values, experience and industry expertise to take Nokia Siemens Networks forward."

Suri, who currently leads the Services business of Nokia Siemens Networks, brings 20 years of experience in the telecommunications industry to the role of Chief Executive Officer. Previous positions have included leading the Asia-Pacific region during a time of significant growth in both product and service sales; overseeing teams for important customers such as Hutchison; and managing products, such as the early cellular transmission portfolio of Nokia. In previous roles, he has been based in various locations including India, Finland, the United Kingdom, West Africa and Singapore. Suri, 41, is an Indian citizen and is married with two children.

"I would also like to thank Simon for his many contributions to Nokia Siemens Networks and to Nokia before that," said Kallasvuo. "I respect his decision to pursue opportunities in a new industry after 27 years in the telecommunications infrastructure sector. He leaves a remarkable legacy as the architect of Nokia Siemens Networks and as a close friend."

Beresford-Wylie joined Nokia in 1998 and held several positions in Asia and Europe before his appointment to head Nokia's infrastructure business group in February 2005. He was one of the leading drivers behind the creation of Nokia Siemens Networks and assumed the position of Chief Executive Officer of the company when it commenced operations on April 1, 2007. He has been a member of the Nokia Group Executive Board since 2005.

"Simon leaves with our deep appreciation for completing the successful integration of Nokia Siemens Networks," said Rudi Lamprecht, Vice Chairman of the Board of Directors of Nokia Siemens Networks. "Rajeev takes on the role of CEO as a proven leader who has most recently demonstrated his abilities with the transformation of Nokia Siemens Networks' Services business. His deep experience in customer-facing and product-related roles makes him an ideal leader for the company."
